- Agile Methodologies

Experience

Website Content Editor · *2020 – Present*
Ginyard International Co.

As a Website Content Editor, I ensure website content is engaging and error-free, collaborate with writers, optimize content for SEO, and analyze performance to improve strategy. It's a dynamic role that lets me contribute to our site's success and engage with our audience effectively.

IT Intern · *2015 – 2020*
Ingoude Company

As an IT Intern, I gained hands-on experience supporting the company's IT infrastructure. My responsibilities included troubleshooting hardware and software issues, assisting with system upgrades, and providing technical support to employees. I also had the opportunity to learn about network administration, cybersecurity practices, and IT project management. Overall, my internship provided valuable insights into the field of IT and helped me develop practical skills for my future career.

PHP Software Developer · *2012 – 2015*
Timmerman Industries

Absolutely, here's a concise experience as a PHP Software Developer:
As a PHP Software Developer, I design and implement web applications using PHP programming language. My role involves developing and maintaining backend systems, integrating databases, and ensuring the scalability and performance of the software. I collaborate with cross-functional teams to meet project requirements and deliver high-quality solutions. Working with PHP allows me to create dynamic and interactive websites, contributing to the development of innovative digital products.
